**The British Constitution Group**

<https://www.britishconstitutiongroup.com/>

**Strapline:** *supremacy of the people over their government by being in judicial authority at all times.*

**Mission Statement:** The British Constitution Group campaigns for the restoration of Britain's ancient Divine secular Constitution, which, for several decades has been systematically denied and undermined by successive corporate governments of all political parties. The BCG is **non-political** and does not endorse or support any political party. We know that for over 1200 years, successive generations of British inhabitants have reasserted the principles that Alfred the Great and others had helped to restore. Specifically, these principles include that of Trial and Annulment by Jury and the *supremacy of the people over their government by being in judicial authority at all times*.

We work to challenge the constitutional change agenda - the imposition and centralisation of the banking and corporate policy through the UK government, European Union, United Nations, IMF, BIS, WTO and World Bank against the British Common Law Constitution. We do not seek to be a popularist movement and our main concern is to find the truth. Our aim is to educate the media and the general public about the rights and freedoms secured by a constitution so often denied by academics and politicians.

We remember, appreciate and respect all those that have devoted their lives to exposing the corruption and have helped to get the truth out, including Elisabeth Beckett, John Harris, Patrick Cullinane, Guy Taylor, Lance, Robert

---

Green and all others. We also need to remember and keep fresh in our hearts, minds and prayers Melanie Shaw and all other whistleblowers and political prisoners. The BCG is a non-profit limited company, Brit Constitution Ltd, No. 06666076, registered in England in 2008.

Please become a supporter of the British Constitution Group by sharing the truth about our natural and Common Law Constitution far and wide and declare your agreement with our desire to see the people of this nation and the rest of the world reclaim their sovereignty and reject tyranny, lies, corruption and exploitation.

### **The New Chartist Movement -**

<https://www.newchartistmovement.org.uk/>

**Strapline:** Uniting people in freedom against tyranny

**Mission statement:** The New Chartist Movement exists to defend human freedom by uniting people against tyranny and promoting the four essentials of:

Common Law for all

Fully restore our ancient and proven Common Law Trial and Annulment by Jury Constitution, to put we the People firmly back in authority over agenda-driven and self-serving politicians, judges, lawyers and bankers, by lawfully removing from them their powers to punish and deceive.

Debt-free money creation

Create prosperity for all by bringing back debt-free and interest-free Treasury money based on the wealth and labour potential of the nation—as we did in 1914 with the enormously successful 'Bradbury Pound'.

Release suppressed technology

Guarantee that science is always used for the well-being and advancement of all and not for the profit and greed of the few. Protect and promote natural health and holistic medicine, and suppressed beneficial technologies

such as free/zero-point energy and energy-based healing systems. Terminate the harmful 5G roll-out, fracking, geo-engineering and any compulsory testing or vaccination programmes.

Real human-scale ecology

Defend local farmers from transnational 'Big Agriculture', promote organic food and nutritional values, reinstate the vital relationship between communities and those who produce their food.

**Strapline:** Changing Course for Life, In Defence of Life. Ecology, Meditation & Activism.

**Mission Statement:** will combine to dispel the illusions of the unaware and put in place a lucid vision of another way forward for mankind.

Drawing upon his highly diverse experiences as an actor, organic farming pioneer, political activist, broadcaster, social entrepreneur, holistic educator and international campaigner, Julian Rose presents a compelling view of the way to break-through the destructive patterns of our consumer obsessed society, challenging his audience to recognize life's bigger picture and to think and act 'outside the box'.

Using an essay style to explore and expose a wide range of contemporary planetary concerns, he calls for a rise in consciousness, so that individuals can fully participate in building a better future together. The book's title: Overcoming the Robotic Mind, concerns the author's expose of the anti-life position of the Transhumanist agenda. An agenda that promotes the notion that computer power will soon take-over control of the human mind.

Sir Julian Rose, Baronet of Hardwick and founder of the Hardwick Alliance for Real Ecology, talks about ecology, meditation and activism in the face of multifarious threats to health, sanity and freedom from corporate globalist technocracy.

**Save Our Rights UK** - <https://saveourrights.uk/>

**Strapline:** Save our rights, save our freedoms let's fight for a real democracy.

**Mission Statement:** To unite the people to take down the archaic and outdated parliamentary model and replace it with a new, radical truly democratic system. We are going to fight the ONE BIG FIGHT and WE WILL WIN.

This is a group for people who are concerned about the infringements upon our human rights, liberties and freedoms. This is a systematic oppression that has been going on for hundreds of years.

We do not live in a democracy nor do we have a voice. We will not accept this any more and are going to fight to change the system to a radical new and real democracy.

This was highlighted by the measures the Government took due to Covid-19 but is a long standing systematic issue so while there are many issues with the latest legislation we do not believe it worthwhile to give our energy to fighting each individual little fight and will instead focus on the one big fight.

This is a group for action, while information sharing is useful ACTION is what will make the difference. This will be in the form of protests – physical and otherwise, coordinating media campaigns and connecting with others to reach a wide audience, we need to be strong together. Please try and keep posts on these topics as much as possible.

**Strapline:** The time has now come for Americans to wake up.

**Mission Statement:** If you really are serious about knowing how to restore the Republic and your freedom you need to put some effort into knowing how our freedoms are being robbed from us by fraud, lack of full disclosure, deception, threat, duress, coercion, and intimidation every day of our lives and have been for over 100 years by the criminals who have hijacked our government, wealth, and heritage for their own gain and evil intentions.

There are 390 million people in America and they all have problems. You are all grown ups and have to move forward together to solve the problems set before us all. We have to seek peace knowing that no peace can exist without justice.

Our diligent research of many years duration proves beyond any rational doubt that our lawful government has been usurped by "governmental services corporations" in the business of selling us -- guess what? More governmental services. In the process they have set up a web of deceipts and false legal claims designed to support and expedite their racketeering and use of armed force to make us buy and pay for more and more and more "governmental services".

**Stand Up X** <https://www.standupx.info/>

**Strapline:** Stand Up UK! For Our Freedom For Our Rights For Our Future.

**Mission Statement:** WE DO NOT CONSENT. We do not consent to the illegal and disproportionate COVID-19 measures. We are a community of struggle against the New Normal. We include many views and many minds of individuals and wide-ranging groups. We March Separately and Strike Together.

#### NO NEW NORMAL

We are living in a state of authoritarian control.

We do not consent to Government social distancing measures infringing upon public and private life. We do not accept enforced masks. We do not accept a dictatorship of lockdowns, threats of lockdowns, and Covid Ghettos.

#### NO COVID VAX

Forced, coerced and mandated vaccinations violate the principles of the Nuremberg Code which states 'any preventive, diagnostic and therapeutic medical intervention is only to be carried out with the prior, free and informed consent of the person concerned.'

Humanity will be a mass science experiment profiting billions for pharmaceutical companies and their partners including Bill Gates.

#### NO SURVEILLANCE TRACKING

Tracking & Tracing is a total violation of personal privacy and freedom to associate. It is a digital Gestapo.

To add to this oppression, the government is proposing a Health Passport, which is designed to track your health records, purchases and public activities including travel. It will not be temporary. It is the preliminary step to 24/7 tracking via an implantable chip. ID2020 is an implantable digital chip developed by the Bill & Melinda Gates foundation, proposed for all 7 billion humans to have, in collaboration with Gavi, the Gates Foundation Vaccine Alliance.

#### TAKE DOWN 5G

5G is necessary for the infrastructure of 24/7 Surveillance Tracking & Implantable Microchips.

This is why our roads are currently being dug up to install the fibre cable network necessary for 5G. This is why trees, which block 5G signals (and help us breathe) are being chopped all over our cities.

5G is lethal to privacy as well as to health. We have no reason to believe 5G is safe. More than 500 studies have found harmful biologic or health effects from exposure to low levels of Radio Frequency Radiation proposed for 5G networks.

**Mission Statement:** Knowledge is power and time is getting very short. This might be humanity's last chance to bring about a less cataclysmic and awakened solution – it all depends on us to decrease the fear through awakening to both the inner and outer truth.

It is indicative of a longer plan of human population control and world domination that has its roots and tentacles spread far and wide through-out all areas of modern life and culture for over 130 years. It dictates what we see, hear, buy, eat, feel, how we behave and how the "status quo" is maintained and how the grand global chess game is played out and perceived by all. It has infiltrated the money supply, politics, corporations, social life, education, religion, law and order, military, health – literally few areas are left untouched.

It's controlled by the mass information establishments, the corporations, with an ever-increasing full-spectrum strangle-hold on a scale never before enabled like it is today.

The propaganda machine of the "Deep State" and "Rothschild Banking Dynasty", entangled with "The Committee of the 300, Bilderbergs, Tri-lateral Commission, the U.N., the CIA, is working 100% overtime, churning out mis-information, obfuscating/distracting from truth speakers, smoke-screens, racism, fascism, FEAR – anything that keeps us running around, attention focused on self-gratification and survival.

**Mission Statement:** Our planet is under serious threats. The level of evil and depravity finding their way into all levels of influence and leadership worldwide happened through centuries of organized crime and occult secret societies working to deceive a willfully ignorant society of people. We no longer can feign ignorance, nor give excuse 'we didn't know'. The crime scenes have been exposed, the criminals found. It is time to act. Acquiesce is consent and we no longer give consent through neglect and inactivity. **Farms not Factories** <https://farmsnotfactories.org/>

**Strapline:** Let's End Factory Farming.

**Mission Statement:** Farms Not Factories is a non-governmental organisation that has been campaigning against pig factories for over 15 years. Using films for public screenings and social media, the organisation publicises the damage caused by factory pig farming to animals, human health and the environment, and urges consumers to only buy local, high welfare and ethically produced pork.

We believe that the factory farming of any species is wrong, but specifically focus on pigs in order to raise awareness where there is currently insufficient public knowledge. Factory pig farms can be defined as "indoor facilities in which overcrowding, and lack of bedding means that animals suffer stress and disease, are prone to tail biting and have to be routinely given antibiotics".

The price of factory farmed pork is seemingly cheap if you only look at the supermarket shelf price. However, the stark reality is that the true costs of factory farming are felt by the health of animals, farmers, consumers and the environment, all of which suffer because of intensive industrial production.

**Mission Statement:** Save Us Now ( S.U.N ) is the all new Political Party that will counter the collusion and crony institutions and systems undermining our freedom the rule of law, democracy and the peace of the United Kingdom.

Getting our Story out.

The top 0.1% have all the wealth as the bottom 90% of us and its damaging businesses and employment. It's the main reason that Rome collapsed. No real economy as the resources get funnelled up to an even smaller few. This is a threat to the nation and the reason it has happened is because of the Crony systems that have been set up that allowed it to happen.

Social Media

The internet, Social Media is a controlled space and will become more controlled with the Governments control narrative, blocking stories that embarrass the Elites. Charles the First tried this by banning coffee Shops in London and look how that ended up. Make sure you follow up your posts share posts and post the imagery about the Microwave Radiation that is killing us slowly. Tell friends talk about this and make sure when we organise public meetings you attend with interested parties.

We can no longer rely on the established Political class to hold the executive to account.

They ignore the rule of law and the system is set up to excuse and reward criminality. The future of our Country is at threat due to ignorance and self-serving elites we need to act within the law. The law is on our side here so "don't get angry get even".

**Strapline:** Outside the Box and Global Peace Radio.

**Mission Statement:** I am an author, artist, and host at my weekly show Outside The Box and Global Peace Radio. I write and talk about us being magicians with amnesia, and that we are magnificent artist's, creators and sculptors of ourselves and the future, and that we actually manifest our future by the manipulation of matter by consciousness, which literally molds our personal lives and the society and world we live in. Whether we are creating a bowl of spaghetti, a walk, a holiday, a baby, a block of flats, a whole city, a war or peace, it is created out of the womb of possibility with thought.

Once we remember how to use this incredible force and redirect it for good we can manifest a virtual Utopia here on earth. The shocking truth is that the greatest threat to humanity is humanities own mind, and it is the imbalance of that human mind which is currently destroying us and our planet.

When we put the mind right we put everything right. There is an emergency and urgency for us to remember and use the miraculous gifts we possess to transform our societies and planet from one of suffering, imbalance and struggle to one of symbiosis, balance and harmony. ~Jason Liosatos~

**UK Column News** - <https://www.ukcolumn.org/>

**Strapline:** Fighting against corruption

**Mission Statement:** UK Column is an alternative multimedia news website and associated British newspaper which was launched in January 2006. UK Column is headquartered in Plymouth in South West England. The UK Column remains the work of a small core group of volunteers, and we are only able to do what we do due to the generosity of those who donate and subscribe.

The UK Column story began with local residents in Devonport, the historic Royal Navy dockyard area of the city of Plymouth in South West England.

Fighting against corruption within Plymouth City Council, and motivated by the increasing interference in their community by government backed 'Quangos', as well as the political charity Common Purpose, local people were unable to get their concerns published by the local press.

Research suggested a collaboration between Plymouth City Council, South West of England Regional Development Agency, the Government Office of the South West, Common Purpose and local newspapers. The simple objective appeared to be to hide the truth. In response a small Devonport group decided to print the truth themselves.

Mike Robinson is Editor of the UK Column and Brian Gerrish is the Author/Editor/Owner of the UK Column Newspaper.

**Strapline:** Historical Anomalies, Alternative Explanation of our Ancient past.

**Mission Statement:** We live in a universe of impossible possibilities and the Observation Deck acts as a vehicle to explore the known and unknowable in equal amounts.

The Observation Deck is a channel which explores lesser known views on many subjects. From history to the roots of modern scientific facts and theories. Rather than seek to change the minds of subscribers, I simply pose views some may not have been considered and leave the rest up to you. I guess it actually is "For elucidation purposes only" and I hope you enjoy your journey of self-discovery and much as I do on mine.
